

Klaus Hau

Member of the Executive Board,
head of Sensing & Actuation business unit

Since January 1, 2019, Klaus Hau (born in 1964) is responsible for the Sensing & Actuation business unit within Vitesco Technologies, which was formed by merging the former business units Sensors & Actuators and Fuel & Exhaust Management. Before that, he was in charge of the Sensors & Actuators business unit in Continental Group's Powertrain division since July 1, 2010.

Klaus Hau studied at Friedrich-Alexander University in Erlangen-Nuremberg, Germany. He graduated in 1991 with a master's degree in electrical engineering, specializing in integrated circuits design.

Afterwards, he joined Siemens Semiconductors in Munich as a product marketing trainee. After a business development assignment in Santa Clara, U.S.A, he was appointed global product marketing manager for chip card microcontroller integrated circuits (ICs) in 1993. He then became key account manager at chip card ICs and then global sales manager before he was appointed head of the chip card ICs business unit in 2000.

In 2001, after Siemens Semiconductors became Infineon Technologies AG, Klaus Hau joined the Communication ICs division as head of Cellular Radio ICs business unit, responsible for chipsets for mobile phones, before he moved to Regensburg as head of Security Packaging Center, responsible for global chip card module assembly.

In 2009, Klaus Hau joined Siemens VDO in Regensburg as head of Advanced Development, where he then became head of sub-division Smart Sensors, with global responsibility for the powertrain sensors business.
