

Werner Volz

CFO Vitesco Technologies

As part of the organizational realignment of the Continental Powertrain division Werner Volz assumed the position of Chief Financial Officer (CFO) of Vitesco Technologies effective October 1, 2019. His departments: Finance, Controlling, Compliance and Legal.

He had already headed the Finance & Control department of Continental Powertrain since October 2018. Mr. Volz is an experienced financial expert and in the past 27 years has held managerial positions in various business areas. Until joining the Powertrain division Mr. Volz had headed Finance and Controlling in Continental's Chassis & Safety division since 2008. He played a major part in the permanent restructuring of these areas during the financial crisis in 2008/2009 as well as in the lasting successful growth management of the business with advanced driver assistance systems.

After studying business administration and economics at the Baden-Württemberg Cooperative State University and the University of Hagen, Werner Volz began his industrial career at the company AEG Telekommunikationssysteme in Ulm. He later became CFO at AEG Automation Systems Corporation in Pittsburgh, USA. Another career step was the commercial management at VDO Kienzle. He later joined Siemens and then Continental, where he ultimately was responsible for managing the Finance and Controlling department of the Chassis & Safety division.

His career highlights: Corporate restructuring AEG USA, cost reduction and restructuring program VDO Kienzle and Continental, carve out and spin-off Vitesco Technologies.
